

Adding u-he Repro Presets

In Repro, go to the Presets menu, right-click on 'Local' and choose 'reveal in Finder'. Move or paste the Reverb Machine preset folders from the download into the respective Repro-5 and Repro-1 local folders.

'14 Synth Sounds' should go into your local Repro-5 folder. '11 Synth Sounds' should go into your local Repro-1 folder. You can change the folder name numbers '13' and '10' to fit with your other preset libraries.

Back in Repro, right-click on 'Local' and choose 'refresh'.
